“PROVED BEST”

Shawmut Tires

Are a product of New England, being made within one mile of Boston, at Watertown, Mass.

They are made under the slow-heat, open-cure process, and with the one idea that

“Quality Counts”

Ideas, however, don't count unless they can be realized. SHAWMUT TIRES show greater mileage, give better service, and are the most satisfactory tires made. They have realized this idea and have

NATIONAL AUTOMOBILE ASSOCIATION

OBJECTS

1. To promote a social and educational organization composed in whole or in part of persons owning self-propelled vehicles for business, personal, or private use.
2. To afford a means of recording the experiences of members and others using motor vehicles.
3. To promote investigation in the development and use of motor vehicles.
4. To co-operate in securing rational legislation and proper rules and regulations governing the use of motor vehicles in city and country.
5. To protect the interests of owners and users of motor vehicles against unjust or unreasonable legislation, and to maintain the lawful rights and privileges of owners or users of all forms of self-propelled vehicles whenever and wherever such rights and privileges are menaced.
6. To promote the sane driving of motor vehicles upon the highways.
7. To co-operate with the public authorities in securing the revocation of licenses of reckless or intoxicated motorists.
8. To disseminate journals, magazines, or bulletins of information regarding laws, ordinances, rules, and regulations affecting motorists.
9. To maintain legal, touring, insurance, supply, and other departments which members may freely consult for advice or the benefits thereof, as well as for legal representation in the courts or before executive bodies.
10. To promote and encourage the construction of good roads and the proper maintenance of highways.

ADVANTAGES

1. It maintains a Legal Department, which offers:

- a. Advice to members or their operators concerning their rights and liabilities in all civil and criminal matters connected with automobiling.
- b. Services in defending any member in any suit brought against him for injuries to animals or damages to property.
- c. Representation in courts of any member or his operator for any alleged violation of the motor vehicle laws of the United States and Canada, including appeals to the Superior Courts; no limitation being placed upon the number of times a member may receive this service.
- d. Advice to members or their operators in regard to their rights before the licensing authorities of the various states.

2. The Touring Department provides:

- a. Information and advice with regard to touring in the United States, Canada, and Europe.
- b. Reliable information relative to hotels, inns, garages, and road conditions in all parts of the United States, Canada, and Europe.
- c. The National Automobile Association Year Book containing a summary of the motor vehicle laws, and all special rules or regulations affecting automobiles in the United States and Canada; tours and maps; a list of National Automobile Association attorneys, and much other information of value to motorists.
- d. The National Automobile Association insignia in brass or nickel.
- e. Registration and license blanks of all states and Canadian provinces.
- f. All details, including the cost and ways or means of shipping automobiles to any place in America or abroad.
- g. Membership in Automobile Association of England for one guinea (this being one half regular membership subscription); associate membership in Royal Automobile Club of England for one pound, one shilling; or in the Touring Club of France for six francs.
- h. A large collection of American and European maps, touring books, and magazines on file at the headquarters of the Association, which members may freely consult.
- i. The National Automobile Association Bulletin issued during the motoring season containing location of "traps," new laws, and other valuable information.

4. The Supply Department offers:

- a. Gasoline (in Boston) at a very liberal discount. One hundred gallon coupon gasoline books on sale at National Automobile Association headquarters.
- b. Lubricating oils at discounts of from 10% to 35%.
- c. Automobile tires at discounts ranging from 5% to 12%.
- d. Automobile accessories and supplies at discounts of from 10% to 40%.
- e. The Official Automobile Blue Book, the A. C. A. Tour Book, and automobile maps at liberal discounts.

INSURANCE DEPARTMENT

The establishment of the Insurance Department of the Association was for the sole object of increasing the benefit and decreasing the cost of automobile fire and liability insurance to members and automobilists generally.

The Association has already been able to increase these benefits and reduce this cost, but only through the assistance of those members who have combined to send a large body of select insurance risks through the Association's channels.

The larger the body of automobile insurance that the Association can direct, the quicker further reductions in rates and increases in benefits can be offered to members.

Every member should contribute to the good of the general cause, which is his own, by consulting the Association about the placing of his automobile fire and liability insurance. He will be insured in the strongest and most liberal companies under the broadest and least restricting policies at the lowest cost to be had anywhere.

There are many variations of automobile fire and liability policies. Do you ever read yours? The Association does for you, and sees that you get all that is due you under the broadest forms issued.

The Insurance Department of the Association exists also for the purpose of instructing its members on all the provisions embodied in insurance policies, and of directing the placing of their insurance, so that the difficulties and embarrassments so often arising from a lack of knowledge of these details may be avoided, as well as the best and safest companies selected.

The National Automobile Association AGAIN calls your attention to its efforts to secure for you and all other Massachusetts automobilists Fire and Liability Insurance on the mutual plan, which will mean insurance at much lower cost than you are now paying.

The Association has petitioned the State Legislature for charters to permit the organization of mutual automobile fire and liability insurance companies, and in the face of a great deal of opposition from the large stock companies now controlling these branches of insurance in Massachusetts, the Association is continuing and proposes to continue its fight for these charters until they are granted.

In the meantime it will pay you to let the Association direct the placing of your automobile insurance.

It will cost you no more than you are now paying. It may cost you less. And it will help to bring nearer the time when all such insurance will cost you much less than at present.

Thanks to the benefits and privileges it has won for automobilists during the past six years, the Association has gained both reputation and influence. But, after all, it consists **ONLY OF ITS MEMBERS**, and it is only by the **EARNEST CO-OPERATION** of its members that the Association can hope to accomplish its aims for their benefit in insurance or any other lines.

INTRODUCTION TO TOURS

In planning and arranging these tours, the object in view has been to furnish the touring motorist with a series of trips through and around New England, which will enable him to visit all places of historical interest and of scenic beauty for which New England and Eastern New York are famous.

Special care has been taken that the night stop-overs should be in places where first-class hotel accommodations are available.

The length of the day's run has been decided upon with a view to furnishing ample time to thoroughly enjoy the beauty of the country, and to allow time to inspect the places of historical interest along the way.

These are tours in the strict sense of the word. No attempt has been made to lay out the most direct route between two points, and in a great many instances the motorists is led far off the beaten path to places of rest and beauty heretofore unknown to the traveling public, and quite inaccessible until the coming of the motor vehicle.

UNITED STATES CUSTOMS

Automobiles of foreign manufacture imported into this country by the owners personally for bona fide touring purposes — i.e., for actual use by the owners for touring purposes only, provided such owners are non-residents of the United States — are entitled to free entry under bond for a stay of three months, provided, however, that such owner shall present at the time of making entry a certificate from the United States consul at the port of exportation based upon the sworn statement of the owner to the effect that said automobile is brought over for touring purposes only, that the owner is in no wise connected with any automobile business, and that the machine is not to be used for any commercial or business pursuits whatsoever while in this country.

The automobile may accompany the owner or come within thirty days before or after his arrival.

This privilege of free entry for touring purposes shall in no case be granted to the same machine more than once in any year.

The privileges of free entry under bond conditioned is also applicable to automobiles brought into this country by non-residents of the United States for the purpose of racing or taking part in other specific contests of automobiles, but not for display in shows or exhibitions of any kind. Such purpose shall be evidenced by the oath of the owner or his agent made before the United States consul at the port of exportation and by him certified, and presented at the time of entry.

The owner of an automobile of foreign manufacture, on which duties have been paid, may, after its identification and the issue of a certificate by customs officers, on his application, take it abroad for touring purposes with the right of free entry on its return with him, or within thirty days thereafter, provided that no repairs, improvements, or additions were made to the automobile, except absolutely necessary repairs costing not more than ten per cent of the original appraised value.

Accessories of foreign manufacture will be exempt from duty in connection with the automobile, provided that it shall be established that they were the ones taken abroad under the certificate. If the certificate covers a set of foreign tires, it will not be necessary to prove that the tires brought in on the wheels were those taken abroad.

Certificates will be issued on request, for automobiles of American manufacture and their accessories, and such automobiles, whether or not under certificate, will be admitted on their return free of duty, provided that they shall not have been advanced in value or improved in condition, and that all repairs made thereto even absolutely necessary did not cost more than ten per cent of the original price of the car; and provided further that it shall be shown that the accessories are those taken abroad under the certificate. Duty will be charged on any accessories of foreign manufacture which shall be substituted abroad.

Foreign tires taken out on the wheels of automobiles may be brought back free of duty.

The owner must take oath and the collector of customs must be fully satisfied that they came within these regulations before any such automobiles and accessories shall be admitted free of duty.

In case of the unavoidable absence of the owner when an automobile and accessories are entered either under a certificate or without one, the duly authorized agent of the owner may give a bond in an amount equal to double the estimated duties conditioned for the production to the collector within sixty days from the date of entry, of evidence to the satisfaction of the collector, with the oath of the owner, that they are entitled to free entry. The bond may be extended by the collector for a total period not exceeding six months.

Section 141 of the Tariff Acts sets duty of forty-five per cent ad valorem on automobiles imported into this country for sale.

CANADIAN CUSTOMS

Imported automobiles, not duty paid, brought in by tourists not domiciled in Canada for their own use temporarily for touring purposes, may be admitted into Canada subject to the following conditions:

The automobile shall be reported at the Customs House at the port of importation, where a careful examination and appraisalment shall be made.

An invoice showing the selling price of the automobile shall be produced (when practicable) as an aid to the collector in determining the value.

The automobile shall not be used for gain or hire in Canada without duty.

Upon receipt a deposit of \$25 and a bond for double the estimated duties, or about 70% of the value of the car, conditioned for the due exportation of the automobile covered thereby, within six months from date of bond, the collector may grant a permit accordingly for the use of the automobile in Canada for touring purposes.

The bond shall be filed by the collector with the tourist's report attached, and the duplicate report shall be handed to the tourist with permit and receipt for deposit endorsed thereon.

The deposit shall be subject to refund by the collector upon return of permit with proof of the exportation of the automobile within six months from date of bond. In default of the exportation of the automobile with proof of such exportation to the satisfaction of the collector within six months from the date of importation the deposit is to be entered as customs duty and the provisions of the bond enforced. The collector may use his discretion in waiving the requirement for the cash deposit when he is satisfied that the automobile will be used in Canada only within the limits of the port of importation and vicinity.

Hotel Sweetwater

Bedford Springs, Mass.

R. L. BROWN, Proprietor
Formerly of Hotel Somerset

JOHN BARNES, Manager
Formerly of Hotel Britannia, Muskoka, Canada

On the old Lowell turnpike seventeen miles from Boston, situated in the center of a four-hundred acre park, and surrounded by pines and oaks.

Three separate and distinct springs on the grounds; Sulphur, Iron, and Sweetwater, all containing invigorating and health-giving qualities.

Afternoon tea on the lawn or piazza for the ladies. Boating, tennis, bowling, and billiards and pool, also one of the most up to date ball rooms will furnish recreation and amusement for all.

An iron and cement garage in connection with the Inn where cars may be stored and washed, and where gasoline and oil may be obtained.

THE "ERSCO" Motor Coat with the **removable** leather or wool lining will be appreciated by all motorists. The garment being entirely finished first can be worn for ordinary use and the extra lining being put in with ball and socket fasteners (entirely concealed) makes a heavy wind and water proof garment.

For utility and warmth, as well as style, this garment is without an equal.
